

Your Health Is Your Biggest Asset

Life today is a constant struggle against stressors, both internal and external. Between hectic schedules, pressures at home and at work, and environmental factors such as viruses and bacteria, it's vital that we do all we can to protect our health and well being.

Zadro Health Solutions proudly manufactures the latest and most innovative products designed to help promote a healthy and active lifestyle and make life easier.

[UV Disinfection Scanners](#)

Help protect against harmful germs, viruses, and bacteria with patented UV Disinfecting Technology.

Our specially designed Disinfecting Wands have been proven to eliminate 99.9% of targeted germs and viruses* on surfaces and in water in as little as 10 seconds.

[Click Here to learn more](#)

[Mood Enhancement Lighting](#)

As the seasons change, and daylight becomes more scarce, some people experience depression like symptoms caused by Seasonal Affective Disorder, or S.A.D.

Mood Enhancement Lighting has been proven effective in combating these symptoms by emitting artificial sunlight that our bodies crave.

[Click Here to learn more](#)

[Oxygen Rejuvenation Technology](#)

Work, stress, and other environmental factors can reduce our natural oxygen levels, which may have serious negative effects on our health and well being.

Our Oxygen Rejuvenation products are specially designed to help promote relaxation and health through increased Oxygen intake.

[Click Here to learn more](#)

[Infrared Thermometer](#)

The infrared thermometer measures temperatures at a distance, without the need for direct contact.

This makes it a more hygienic and comfortable way to measure temperatures within the ear or on surfaces and in liquids.

[Click Here to learn more](#)

[Visual Enhancement Solutions](#)

Having trouble reading small text, working on detailed projects, or perhaps you just need some extra lighting in your home or office?

Our line of LED Lighted Magnifiers provide all the benefits of energy-saving LED lamps with the powerful magnification of desktop and handheld magnifiers.

[Click Here to learn more](#)

[Personal Relaxation Technology](#)

With the high levels of stress in our everyday lives, it's important to schedule some "me time" and relax.

With a wide variety of relaxing massagers and brushes, take a well deserved break with a relaxing massage.

[Click Here to learn more](#)

*Targeted germs and viruses include: Salmonella, E.Coli, Staphylococcus Aureus, and the H1N1 virus

Product Description

For office, home or travel, the new Nano-UV Disinfection Light Scanner by Zadro Products eliminates 99.99% of bacteria, mold, fungus and virus surface contaminants in only 10-seconds from virtually any type of surface to promote better health in a more germ-free environment. This easy-to-use handheld, battery operated unit is approximately the same size as a compact cellular flip phone and disperses a UV-C light that provides a proven germicidal killing zone of 253.7 nanometers (nm). This is the same type of UV light that is commonly used by hospitals to sterilize surgical rooms. The compact Nano-UV Disinfection Light Scanner employs a long lasting (5,000 hour rated) ultra violet bulb that effectively kills 99.99% of all germs from any type of surface with a quick 10-second sweep by the Nano Scanner. For easy operation, users simply flip open the unit, click the 10-second auto-timer side button and sweep the light 1/4 to 4-inches over the desktop, computer keyboard, phone or any other desired surface area where germs collect. Holding more than 40 engineering and design patents, Zadro has created a brand with products that meet the ever-changing lifestyles and needs of their customers. Zadro

Great for allergies

I bought this in hopes it would help with my dust mite allergies and I no longer wake up with a stuffy nose. It works great on any fleas my cats may leave on the bed as well.

NANO-UV™ DUAL SCANNER
Water & Surface Disinfection

User Manual

You are the proud owner of
the world's first compact
NANO-UV™ DUAL SCANNER
Water & Surface Disinfection

Read these instructions before use.

The Nano-UV™ Dual Scanner for water and surface disinfection safely kills 99.9% of targeted germs on surfaces within 10 seconds or in 500 ml (2 cups) of water within 40 seconds.

This product is designed for powerful surface and water disinfection. It produces sufficient energy to damage and alter DNA of all kinds of microorganisms.

For your safety, do not expose your body or your eyes to this Nano-UV™ light as it may be harmful.

Do not let children play with or use the Nano-UV™ Dual Scanner.

Use the Nano-UV™ Dual Scanner for disinfection of surfaces when at home, in public places, in the office or when traveling. The Nano-UV™ Dual Scanner can also be used for disinfecting drinking water when traveling in exotic or unfamiliar locations.

For surface disinfection:

For water disinfection:

Use Nano-UV™ Dual Scanner in:

Homes: kitchens, bathrooms, butcher blocks, remote controls, counters, bedding, mattresses, toilets, shower floors, footwear, litter boxes, pet beds

Nurseries: bottles, pacifiers, changing tables, cribs, toys

Offices: telephones, restrooms, cell phones, keyboards, furniture

Public places: hospitals, clinics, medical offices, waiting rooms, retirement homes, gyms

Restaurants: utensils, tableware, high chairs, restrooms

Public Restrooms: toilets, sinks, doorknobs, paper towel dispensers

Traveling:

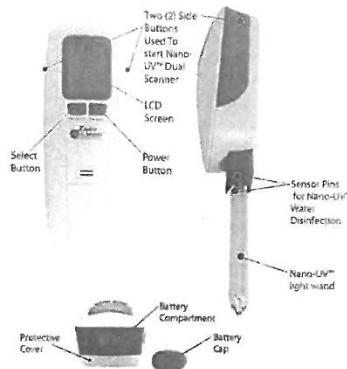

Hotels: pillows, bedding, towels, doorknobs, bathrooms, tables

Airplanes: seats, headrests, waiting areas, trays, headsets

For Water Disinfection:

Use to disinfect water so that it is suitable for drinking and free of bacterial contaminants which can cause illness.

Nano-UV™ Dual Scanner:
Model No. NANO15

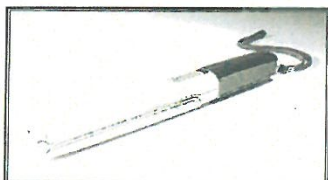

How to use:

1. Do not use this product or allow anyone to use this product until proper operating procedures and warnings are understood.
2. Open the battery cover located on the top of the Nano-UV™ Dual Scanner by pressing down on

NANO-UV® Wand
Large Area Disinfection Scanner
User Manual

Scan Here

You are the proud owner of
the worlds first Large-Area
Nano-UV Disinfection Scanner!

Read these instructions before use.
Model No.: NANO10

This product is designed for a powerful surface disinfection. It produces sufficient energy to destroy DNA of all kinds of microorganisms.

Do not expose your body or your eyes to this Nano-UV® Light.

It will kill 99.9% of Targeted Germs on Surfaces in 10 seconds.

The Nano-UV® Wand is suitable for personal and family life and can also be used widely in different social and business environments. Its handy design and ease of use are especially suitable for home, office, hospital, doctors offices & waiting rooms.

Application Area

Infants - bottles, pacifiers, changing tables, cribs & toys

Restaurants – utensils, tableware, high chairs, restrooms, tables, kitchens & food.

Hotels – pillows, bedding, towels, doorknobs, restrooms & beds.

Offices – telephones, office equipment, keyboards, furniture & restrooms

Public restrooms – toilets, sinks, doorknobs, paper towel dispensers

Home – butcher blocks, cat litter boxes, kitchen counters, bedrooms, sinks & toilets.

Hospitals, clinics and retirement homes.

How to use

Charge the Nano-UV® Wand with the provided charger for 5 hours prior to initial use.

1. Pull both safety locks towards the handle. Open cover to the full extension. The green LED will now be on.

2. Press power the button. The Nano-UV® Wand is now operational and is sanitizing.
3. Hold the Nano-UV® Wand between 1/4" and 2" from the surface you want to sanitize. Please note the progress on the progress bar, it will turn off automatically after 10 seconds.
4. For highly contaminated areas, hold the Nano-UV® Wand closer to the object (within 1/4") and repeat scanning 2 or 3 times.
5. For larger areas, place the Nano-UV® Wand between 1/4" & 2" and move the wand slowly over the area until the entire surface has been covered.
6. Close the cover, and the Nano-UV® Wand will turn off automatically.
7. Double click the power button  to have the Nano-UV® Wand stay illuminated. Pressing the power button again will return it to the 10 second countdown mode.
8. After scanning you might smell a strong after-rain ozone scent. This is normal and is a natural cleansing process generated by disinfection.
9. When the battery is low, the LED indicator will

ZHS-000065
