Re: General Signal Corp.
File No. 941-0039

Dear Mr. Rally:

The Commission - has conducted an investigation involving possible violations of the Federal Trade Commission Act and the Clayton Act by General Signal Corporation through the acquisition of certain assets and the continued enforcement of non-competition agreements concerning those assets.

Upon further review of this matter, it now appears that no further action is warranted by the Commission at this time. Accordingly, the investigation has been closed. This action is not to be construed as a determination that a violation may not have occurred, just as the pendency of an investigation should not be construed as a determination that a violation has occurred. The Commission reserves the right to take such action as the public interest may require.

Paul K. Davis
Acting Regional Director
